Teachers' strike

While members of the BC Teachers Federation & BC Public School Employers Assoc. were at the bargaining table all weekend in a downtown Vancouver hotel, neither side were talking to media. As of last evening, there was no news of having reaching a deal. Teachers will be in 'study sessions' today; they'll gather off school property and schools will not be picketed.

Unless the two sides can come to an agreement today, a full withdrawal of services will commence tomorrow, Tuesday, June 17.

In the event that the strike continues, provincial exams will be given and marked, and final grades provided for grade 12 students, deemed essential services.

Nat'l Tourism Week

June 16-20, 2014

Tourism is a vital part of BC communities and the economy — generating \$13.5 billion and employing more than 127,000 people. BC is a highly-rated tourism destination because of awe-inspiring natural assets, unique experiences and world-class customer service. One out of every 15 people employed in the province works in tourism in areas such as accommodations, food & beverage services, transportation, retail, recreation and entertainment & travel services.

According to Destination BC, international travel is forecast to double over the next 20 years worldwide and BC will need to focus on smart marketing and exceptional experiences — touring vacations, city experiences, skiing and snowboarding, Aboriginal tourism, conventions and meetings, as well as outdoor adventure and eco-tourism.

Got Bats?

If you have bats in your house, barn, or property, contact Community Bat Programs at www.bcbats.ca. They want to learn more about bats in BC, and if needed, help you safely & gently evict bats from your building and find them a new home.

Bat Watch is a citizen science program to annually monitor bat populations in roost sites. The Bat Count includes 4 counts during the summer: two June 1-21 (before pups can fly), and two more July 21-August 15 (when pups are flying and exiting the roost with their mothers).

Monitoring these "maternity colonies" can give biologists a good idea of how bat populations are doing from year to year. With the occurrence of White-nose Syndrome in North America, monitoring these colonies is more important than ever.

Prescription Bottle

A pharmacist is going over the directions on a prescription bottle with an elderly patient. "Be sure not to take this more often than once every four hours," the pharmacist says. "Don't worry," replies the patient. "It takes me four hours to get the lid off."
