And here are the candidates...

Now until the election, we'll be devoting space to the candidates... no leading questions, just what they want to tell you, the electorate. (They are being published in the order we received them.) —KL
Mike Jolly - for mayor

I'm Mike Jolly of A&M Holistic Wellness. A family man and a business man of 35 years. I am running for Mayor in the current election. I have witnessed much dysfunction and antagonistic behaviour between mayor and council, and feel this has to stop. With your vote, I will create transparency and open dialogue between city council, staff and citizens. Welcoming any and all ideas and sharing them with the appropriate channels.

As a business owner, I understand the importance of economic growth and infrastructure in creating stability and the long term growth of Merritt. I also understand there is a delicate balance that needs to be recognized and honoured.

I will take a stand for the betterment of Merritt and quality of life for its citizens, by increasing our hospital status - air quality - services for the elderly and families. I support our Official Community Plan and look forward to growing our community to 15,000 strong. This Nov. 15th, vote for a new age of growth & prosperity, vote Mike Jolly for Mayor.

Linda A. Brown - for city council

I would like to represent you on city council. I was raised in Merritt. The Brown family has been logging here for over 50 years.

My education includes ART, BA, MSc degrees with majors in public policy, Planning and Administration, and an accounting designation as a CPA CGA.

I have over 30 years executive experience which started as a Manager of Health Records here at the Merritt Hospital. I finished my career two years ago as a chief financial officer. All of my experience is non profit, working with boards, and is in line with that of local governments.

After a successful career, I have come home to roost. Although officially retired, I still consult as an efficiency expert, strategic planner, and help businesses be more competitive.

My primary goal is fiscal responsibility. Budgets need to be balanced by decreasing expenses instead of increasing taxes. It means looking at what and how we are currently doing it. Can we achieve the same or even better results by approaching it in another more efficient way?

Status quo is not good enough. Every department, every budget, every program line needs to be reviewed annually. Economic growth needs to be sustainable which can only be achieved by keeping our house in order.

I would like to make a difference to ensure our city is fiscally responsible.

Diana Norgaard - for city council

Allow me to introduce myself. I'm a born and bred Merrittonian. At the age of 18 I HAD to leave to find work, pursue an education and develop a career. I would like to be part of a team that works to make Merritt a place where 18 year olds don't have to leave. In order to do that, Merritt must grow and develop. But I don't believe in development for development's sake. I believe that the City must be both socially and environmentally responsible in pursuing growth; pursuing real sustainable jobs and not sticking our grandchildren with a clean-up bill. In order to attract growth we must ensure that our infrastructure can support such, including our social infrastructure.

As a social worker, I live by the creed that information is power. Historically the City of Merritt has held town hall type meetings where elected officials can hear the concerns of the citizens and answer their questions. I will strongly advocate for a return to an informed council and public.

Lastly, I wish to tell you why I choose to do this now. I grew up in a family that values service to the community. I believe that now is the time for my generation to step out from the background and up to the plate.

French Police This happened in France to an Englishman who was totally drunk. The French policeman stops his car and asks the gentleman if he has been drinking. With great difficulty, the Englishman admits that he has been drinking all day, that his daughter got married in the morning to a French man, and that he drank champagne and a few bottles of wine at the reception and a quite few glasses of single malt thereafter. Quite upset, the policeman proceeds to alcotest (breath test) him and asks the Englishman if he knows under French law why he is going to be arrested. The Englishman answers with humor: "No, sir, I do not! But while we're asking questions, do you know that this is a British car and my wife is driving ... on the other side?"
