Intuitive Painting focuses on your spontaneous self expression via contact with creative energy. The focus is not on final product or aesthetic techniques. Painting is used as a tool to help you face the creative void evoked by the empty white paper. You will explore your patterns that prevent the spontaneous emergence of images and colour. You will be introduced to a method of inquiry that dissolves creative blocks, moves you deeper into your inner authentic world, and

No previous painting experience is necessary. Be prepared for fun, emotions, self discovery, soul support and colour!

Painting process and photos at www.mypage.uniserve.ca/~sn1138/

has taught intuitive painting workshops and retreats, across Canada, USA, and Mexico for over 20 years. She completed over 3 year intensive training and certification program at The Painting Experience Studio in San Francisco, under Michele Cassini. Her background is in teaching in post secondary education, public information, personal development and social justice programs. She currently lives in Spences Bridge, BC

NV Museum Archives AGM

James Teit

Lynne Jorgesen, Cultural Heritage Resources Manager for the Upper Nicola Band, will be making a presentation about James Alexander Teit to the Annual General Meeting of the Nicola Valley Museum Archives Assoc. at 7pm, tomorrow, Thursday, March 19, at the Seniors Centre adjacent to the Museum, 1675 Tutill Court. Everyone is welcome, FMI contact the Museum, 378-4145.

In 1884, Jimmie Teit arrived in Spences Bridge, at a time when an old culture was giving way to a new. Everywhere in the Nicola Valley people - white man and Indian alike – were ranching, farming and building industry. Teit chose to devote his life to chronicling it.

The culture of the local Indians attracted Teit's attention very soon. Within a few years he married Lucy Antco, a Thompson. Two years later in 1894, renowned anthropologist, Franz Boas, was travelling through the area, and urged Teit to compile his work. By the time of his death in 1922, numerous of his large manuscripts had been published - a large collection of Thompson myths (1898); ethnographies of the Thompson Indians (1900), Lillooet Indians (1906), and Shuswap Indians (1909), to name only a few. In these one can glean the vast depth and scope of Teit's work. Every topic is covered, from ethnobotony, ethnogeography, basket designs and construction to traditional style of dress.

From 1915 to 1921, Teit kept an Edison wax-cylinder recording machine in his office in Spences Bridge and spent many an hour there recording the local singers. Story-teller, folklorist, ethnographer, socialist, hunter, and guide – anthropologist of the people. On his passing, Franz Boas noted, "Truly in (Teit) the Indians have lost their most faithful friend."

Letter to the editor

Sewage sludge in the Sunshine Valley

Dear people of the Sunshine Valley,

I like to support your protest and efforts to keep the Sunshine Valley clean from sewage sludge. As I've visited the Nicola Valley several times for the last four decades to meet my loved family who moved to Canada in the 1950s.

Now I got aware that the health of my family and the so far healthy environment they live in is on danger by the deposit of biosolids from Vancouver in their neighbourhood. As this solids are the extract from water treatment they may contain toxins in high concentration. Once spread on fields these toxins are out of anybody's control, once washed into the earth you never have a chance to get them out. So it is right to fight the beginnings, if once established... it will be too late.

Even if everything ahead of the deposit was made according to law by the authorities it is an unfair act not to ask or inform the people who have to take the drawback. I don't see any benefit for them, the profit is made elsewhere but not in the Sunshine Valley. Their living is put on risk as the effects may appear late, be irreversible and lasting for a long time - wells and fields may be contaminated, the crop, all wildlife - not only fish, finally health and jobs of the people living in the valley.

Because of all this dangers, we (squareheads) in Germany reduced the spreading to a minimum, most of the material goes to cement industry and power plants, the ashes to save deposits and there are efforts made to get back phosphor as a fertilizer without heavy metals. I hope the protest will force the authorities to hear the concern and think about a better solution - and that next time I visit my family they can say "Look, this is where they TRIED to..."

Yours, Clemens Kummerlaender,

Lake of Constance, southern Germany
