Clarification from Randy Murray

Please consider the following for clarification of the email I sent out on Tuesday April 28, 2015 Merritt BC: *Arrests loom as Nicola Valley Residents Vow to Stand Firm.*

I sent this communication expressing my personal thoughts and did not send it on behalf of the Thompson Nicola Regional District or any of its directors. The Directors were cc'd only to ensure transparency in my communication as I understand how important our board considers being open to all sides of an issue in determining the appropriate course of action. My response was driven by my concern for the constituents in the Nicola Valley that have spent long hours expressing their feelings through assembly and action.

Despite what was an emotional plea for help to resolve this situation I remain clearly focused on the examination and careful consideration of existing processes and procedures as well as all alternatives for the future effective management of Biosolids in BC in order to determine what is best for all that live, work and visit here. Should any issue, resolution, bylaw or other decision come before the TNRD Board for consideration, determination or exercise of discretion I will carefully evaluate all positions, information and considerations brought to the Board and I will continue to have an open mind and be capable of persuasion in my evaluation of such matters.

April 28 [As the one of the TNRD local government representatives of the Regional District I am appalled by the BC government decision to refuse to negotiate with the group of concerned citizens against the poisoning and devaluing of their local environment. By supporting the misguided business interests of a few they have set the stage for this confrontation. By taking the side of big business they have issued tacit approval to the sludge companies to garner supreme court approval of an injunction that will force the issue. What insanity.

Do you not listen to the people of this province... stop the uncontrolled spread of Bio waste... decide to do this differently... how hard is that... do not hide behind the outdated legislation and science that allows this arcane practice. People all over the world are waking up to this insanity... if it is truly Beautiful BC that matters then take a stand and make it so. Enough. Do not introduce dangerous unknown products into the food chain.

Why take the risk? We have been here before, believed the science and paid the price. Please stop and listen, lets work out a solution that supports future generations not endangers them!.

Grant Them Each One Wish A married couple, both 60 years old, were celebrating their 35th anniversary. During their party, a fairy appeared to congratulate them and grant them each one wish. The wife wanted to travel around the world. The fairy waved her wand and "poof" -- the wife had tickets in her hand for a world cruise. Next, the fairy asked the husband what he wanted. He said, "I wish my wife was 30 years younger than me." So the fairy picked up her wand and "poof" -- the husband was 90.

THIS WEEK'S HOROSCOPE

Aries
March 21 - April 19

You story this week is almost an epic tale of struggle and sacrifice, striving against the odds. Will it all be okay in the end? Stop worrying. Find amusement in the passing show.

Taurus
April 20 - May 20

You have made a commitment to someone and you refuse to become distracted or diverted. So many new factors call for your attention, but you hang on & finish what you have started.

Gemini
May 21 - June 20

Allowing our mind some exercise, it decides it wants to inquire about new things. A genius sees connections where another might see only separation. Prepare to be surprised & rewarded.

Cancer
June 21 - July 22

A special quality radiates from your eyes — magnetic, persuasive. It could work in your favour, if you were willing to exploit such an advantage. The fact that you are not makes you all the more loveable.

Leo
July 23 - Aug 22

Not all fires are easy to get going. But a new flame of hope is being lit in your heart this week and there is no need to fear it fading.

Virgo
Aug 23 - Sept 22

You find the potential to change a situation which has remained stable for too long. To bring about the improvement, you need to do less of something... not more.

Libra
Sept 23 - Oct 22

Even in your lifetime, you've had to adjust to major social & cultural change. This week, put yourself at the cutting edge and make a break with a bad part of history.

Scorpio
Oct. 23 - Nov 21

You don't like to be told what you can & cannot do. If instruction comes from a source in which you have little faith, it inspires rebellion. Should you stand your ground? Fight on!

Sagittarius
Nov 22 - Dec 21

You aren't so sure of the way to get from where you are to where you need to be. Don't worry, just keep doing what you're good at. You won't just meet an objective, you will yet surpass it.

Capricorn
Dec 22 - Jan 19

Life seems to be putting you under a lot of pressure. Each time you make even a small gain, the universe undermines your authority. This exasperating phase will end soon.

Aquarius
Jan 20 - Feb 18

You are quick to assume that you know more than everyone else. Confront the idea that there is a real discovery to be made. Once you've squared this with your pride, you profit.

Pisces
Feb 19 - Mar 20

If your life was a tale in a storybook, what a compelling central figure you'd make. Readers would sympathise with your struggle & go against any who attempt to spoil your happiness.
