In loving memory

Antonio Cavaliere
July 1, 1942 - June 28, 2013
His loving face, I hope to see again,
Though the days have passed.
Sleep on dear husband and take your rest,
Miss you most, love you best,
From your loving wife, *Sue and family*
We love you

Friends of the Nicola Valley
103 days, 405 trucks
Today [Monday, June 22] marks 103 days of roadside protests, People! That equals approximately 405 truckloads of Biosolids from Okanagan and Lower Mainland that we have held back from being dumped here! Do you know how many tons of toxic waste that is? Think about it.
I would say we are doing a good job, and that we need to continue on with our fight against this issue! The approval of the Dry Lake dumping site is a slap in the face after our continuous efforts in stopping this contamination. Any day now, they will start the construction of the road to Dry Lake...keep your eyes open, people! Time to step things up!

Fire season
The Wildfire Mgt Branch is sending 31 firefighting personnel to the Yukon to aid in fire suppression efforts there. Ten three-person initial attack crews and one agency representative left yesterday.
The request for assistance was made through the Canadian Interagency Forest Fire Centre, which co-ordinates the mutual sharing of firefighting resources between BC and other jurisdictions. All associated costs are covered by the jurisdiction that requests the resources.
Considering the current and forecasted fire situation in BC, sufficient personnel and resources remain in the province to respond appropriately to any fire activity here. Crews can be deployed out-of-province for up to 19 days, but they can be recalled at any time.
Another 21 personnel, 4 fixed-wing aircraft and a helicopter are currently stationed in Alaska.
The 77 firefighters and 1 agency representative that are currently deployed in Alberta are expected to return home on Wednesday, June 24.
The forecast for today is 27°C, then temps are going up: 33° tomorrow, to 39° for Saturday, dipping only slightly towards Monday. And this at a time of year, normal temps range around 24°C. The fire danger rating is high in our area, and all around the province.
In total the Wildfire Mgt Branch has responded to nearly 500 fires already this year, approx. half were lightning-caused and half were human-caused. Over 60,000 hectares have burned to date, well above the 10-year average of 16,327 hectares.
They've already spent \$52.5 million of the \$63 million budget for this year. In the past, when necessary, the provincial government has drawn cash from its contingency fund to cover the extra expenses. 2014 was the 3rd worst season on record, when 1,424 fires consumed more than 359,000 hectares, costing the government \$293 million in firefighting efforts. The worst fire season was 1958 when fires burned 859,000 hectares. In 1961, when 483,000 hectares were burned.

Q: What did the guy say when he walked into the bar? A: Ouch.
Learning to Remember Two elderly couples were enjoying a friendly conversation when one of the men asked the other, "Fred, how was the memory clinic you went to last month?" "Outstanding," Fred replied. "They taught us all the latest psychological techniques: visualization, association, etc. It was great." "That's great! And what was the name of the clinic?" Fred went blank. He thought and thought, but couldn't remember. Then a smile broke across his face and he asked, "What do you call that flower with the long stem and thorns?" "You mean a rose?" "Yes, that's it!" He turned to his wife, "Rose, what was the name of that memory clinic?"
