Waste-to-energy biosolids solution

TNRD Electoral Area M Director Randy Murray has organized an info meeting to explore a waste-to-energy solution to dealing with biosolids, as an alternative to land application of sewer sludge.

The public meeting will take place tomorrow, Sept 3, 1:30-3pm at the NVTI lecture theater. A presentation will be made by Kevin Hull, CEO, Emergent Waste Solutions, *Pyrolysis a better way*.

[This Vimeo video, along with others, can be found under alternatives tab at www.biosolidsbc.com website. <https://vimeo.com/95563860>]

The premise is: Biosolids are placed in an oxygen deprived environment and heated to a point at which the composite chemical makeup of the feedstock separates and the molecules recombine into useable products like fuel oil, syngas and a charcoal like product called bio-char.

This is an opportunity to learn about an environmentally-sustainable solution to the biosolids problem and provide input. With the Union of BC Municipalities Convention Resolution B-59 "Biosolids, process review" coming before the UBCM assembly in Vancouver September 24-26, this is an opportunity to understand the focus of the resolution and learn more.

Randy will also be taking questions on the current issues with regard to biosolids in the Nicola Valley.

Fatal Coq crash

Merritt RCMP & BC Ambulance Service responded to a report of a single vehicle collision at approx. 7:45am Monday. A northbound pick-up truck with a driver & passenger hit the ditch about 4 km south of town. The 38-year-old male passenger was ejected from the vehicle, and succumbed to his injuries at the Nicola Valley Hospital. The 24-year-old female driver was transported to Royal Inland Hospital with non-life threatening injuries. Both are residents of the Lower Mainland and no names have been released.

The cause of the crash is still under investigation, though police said the scene was consistent to other accidents caused by driver inattention.

Campfire ban rescinded

Effective at noon last Monday, Aug. 31, campfires are once again permitted throughout the Kamloops Fire Centre.

The campfire ban was rescinded due to recent widespread precipitation, which resulted in a decreased risk of wildfires in the region. The fire danger rating is now primarily low to moderate throughout the fire centre.

There are still lots of campfire safety points: you can find them all at www.bcwildfire.ca People who light campfires are legally responsible for making sure that they don't escape. They may be held accountable for damages and fire suppression costs if their negligence results in a wildfire.

Category 2 and 3 open fires remain prohibited.

Aerial Photography The photographer for a national magazine was assigned to get photos of a great forest fire. Smoke at the scene was too thick to get any good shots, so he frantically called his home office to hire a plane. "It will be waiting for you at the airport!" he was assured by his editor. As soon as he got to the small, rural airport, sure enough, a plane was warming up near the runway. He jumped in with his equipment and yelled, "Let's go! Let's go!" The pilot swung the plane into the wind and soon they were in the air. "Fly over the north side of the fire," said the photographer, "and make three or four low level passes." "Why?" asked the pilot. "Because I'm going to take pictures! I'm a photographer, and photographers take pictures!" said the photographer with great exasperation. After a long pause the pilot said, "You mean you're not the instructor?"

Two Fleas Two fleas were walking out of the cinema when they discovered it was raining hard. "Shall we walk?" said one flea. "No," said the other, "lets take a dog."
