**Shake-down at City Hall — again!**

City Council has called off the search for a new Chief Administrative Officer, and appointed Shawn Boven, who has been the Manager of Public Works for the past 10 years, and more recently the interim CAO after Allan Chabot left. The appointment ends an expensive contract with the head-hunting company who was to handle the hiring of a new CAO.

"It became clear quite quickly once Shawn was in the role that he was the best fit for the organization and the community. Shawn supports the vision of Council and will be key helping implement it," said Mayor Neil Menard.

And right off the bat, Shawn will help in re-structuring City Hall's 'new senior management leadership team'. They are currently looking for:

**Director of Corporate Services** who advises the CAO, Mayor, Council and senior staff on legislative & related matters; oversees the provision of Bylaw Enforcement & Human Resources services; acts as the primary media relations; is the Emergency Public Information Officer, and the Freedom of Information & Protection of Privacy Coordinator

**Director of Engineering & Development** who provides leadership, and guidance in the development, implementation & administration of capital projects, maintenance programs, the OCP process and Zoning Bylaws. He/she'll need extensive municipal infrastructure experience; supervisory experience; knowledge & understanding of the Community Charter and the Local Government Act; experience in computer applications related to the field of engineering; and be able to interpret construction and design drawings.

And a **Director of Finance & IT**, who provides leadership and guidance in the establishment, implementation and administration of the Financial Plans; oversees the central computer system and provides leadership in corporate information technology applications and hardware; will be a CPA designation; have 5+ years extensive municipal financial experience, and a high level of competency and understanding of computer systems & municipally related software.

They'll start reviewing applications as early as September 18th.
