Hockey Hall of Fame induction tonight!

The BC Hockey Hall of Fame announced its 2016 inductees early in January — and the annual induction celebration takes place this evening at the South Okanagan Event Centre in Penticton. Our own Brian Barrett, along with Brendan Morrison, John Grisdale, Murray Baron, Pat O'Neill, and 1989-99 RBC Canadian Jr. Champions Vernon Vipers will join the ranks of BC hockey greats.

“Brian Barrett played minor hockey in Merritt and more than 50 years later is still actively involved with hockey in the community. He played Junior in Penticton, Kamloops and Merritt before starting a coaching career in 1971. He coached Midget and Junior teams for some 25 seasons. Brian also was an Owner and Manager of the Merritt Centennials. For Merritt’s master builder of hockey, no job has been too big or too small. Well over 100 Centennials have enjoyed hockey careers at the pro level including 14 in the NHL. Barrett has won many awards including BCHL Coach of the Year and the Dunc Jamieson Award. Merritt Centennials are the longest continuously run franchise in the BCHL....Barrett has been an integral part of that great success.”

FAGTCJ Gary Cooper & Cooper Country

I can't say enough about the music going on Fridays and Saturdays at the Adelphi Hotel. Gary Cooper and Cooper Country, including Ernie Pawliuk on bass and guitar. There's been a recent change back to a previous schedule both Friday's & Saturday's 1:30-4pm & 7-9pm.

If you're itchin' to have a go at performing, they'll welcome you, and you could be in great company, jamming with the likes of Bobby Garcia and other notable locals.

Best of all, there is a decent-sized dance floor, and, if you happen to be a single gal, dear Howie is generally there to offer his services as a willing and very capable dance partner.

If you haven't checked it out yet, please do. There's nothing better than live music, country or other, and I guaran-damn-tee you that you won't be disappointed! —JdW

Throwing Peanuts Three men appear in court, on charges of drunk and disorderly conduct in a public park. The judge asks the first defendant, "What were you doing?" "Oh, just throwing peanuts in the pond." The judge asks the second gentleman, "And what were you doing?" "I was throwing peanuts in the pond, too." "Sounds harmless," says the judge. He turns to the third person, "And you, were you throwing peanuts in the pond as well?" "No, sir. I AM Peanuts!"

THE GLOBAL GOALS

For Sustainable Development

14
LIFE BELOW WATER

"It is a curious situation that the sea, from which life first arose should now be threatened by the activities of one form of that life. But the sea, though changed in a sinister way, will continue to exist; the threat is rather to life itself."
—Rachel Carson

Conserve and sustainably use the oceans, seas and marine resources for sustainable development

TARGETS • By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution

- By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, by strengthening their resilience, and take action for their restoration for healthy & productive oceans
- Minimize and address the impacts of ocean acidification, through enhanced scientific cooperation
- By 2020, regulate harvesting and end overfishing, illegal, unreported and unregulated fishing and destructive fishing practices and implement science-based management plans, in order to restore fish stocks in the shortest time feasible, to levels that can produce max. sustainable yield
- By 2020, conserve at least 10% of coastal and marine areas, consistent with national and international law and based on the best available scientific information
- By 2020, prohibit certain forms of fisheries subsidies which contribute to overfishing, eliminate subsidies that contribute to illegal, unreported & unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation
- By 2030, increase the economic benefits to Small Island developing States and least developed countries from the sustainable use of marine resources, through sustainable management of fisheries, aquaculture & tourism
