Tom's & Merritt Towing's 7-day challenge to help evacuees

Tom's & Merritt Towing has issued a challenge to the community to help them fill their 53' strong trailer with donations for those who've been evacuated from their homes. They're collecting everything other than furniture, ie. toiletries, personal hygiene items, diapers, canned food, clothing, etc.

You can stop by to donate until next Sunday, July 23, and write a message. 1141 McFarlane Way, next to Emcon. 8am-5pm daily.

Wildfire update Australian contingent arrives to help fight fires

A contingent of specialized wildfire personnel from Australia will arrive today, to assist with wildfire response.

About 50 wildfire personnel, including officers and technical specialists. They will be deployed throughout the province, based on current and anticipated wildfire activity, and could remain in BC for up to 38 days.

These personnel will join more than 1600 provincial staff, 940 BC contractors and 450+ out-of-province personnel already actively engaged in fire suppression.

Restrictions for Crown land

Effective at noon yesterday, an area restriction for Crown land around the Elephant Hill wildfire (formerly referred to as the Ashcroft Reserve fire) came into effect. It will remain in place until the public is otherwise notified.

The area restriction order means that no one, apart from authorized personnel, may enter these areas of Crown land at any time. Individuals who own or lease property within the boundaries of the area restriction may still access their property via the shortest route, once the evacuation order in this area is rescinded. The restriction does not include private land or the garbage dump and transfer station.

BC Hydro woes BC Hydro crews continue to repair and rebuild electrical infrastructure damaged by the wildfires. In the Cache Creek area, they are rebuilding 11 transmission structures. Due to the challenging terrain and limited access to the area, specialized cranes and track equipment are being used.

While these repairs are underway, BC Hydro has re-routed power delivery on to alternate circuits to maintain supply for most customers. Crews spent 4 days last week working to rebuild 35 transmission structures between Ashcroft & Spences Bridge. Each transmission tower was helicoptered into the area and crews on the ground worked to guide them into place.

Latest assessments show wildfires have caused damage to 248 distribution power poles, 114 cross arms, 231 spans of wires and 35 transformers.
