Update: NV Hospital & Health Care

Emerg expansion

Interior Health has chosen Kamloops-based True Construction Ltd. as the general contractor for the expansion and renovation of the Nicola Valley Hospital and Health Centre's emergency department.

Construction should begin this summer, and will be complete by fall 2018. During this time, a new temporary entrance will be created next to the current entrance on the north side of the hospital, to allow for uninterrupted access to the building. There will also be lots of signage and lighting to safely direct patients and staff around the construction site.

The anticipated cost is approximately \$6.5 million, and will be shared by the Prov. of BC through Interior Health, the Thompson Regional Hospital District, the Nicola Valley Health Care Endowment Foundation, and the Nicola Valley Health Care Auxiliary.

The update will increase the dedicated department space to approx. 5,380 sq. ft., up from the current 1,076 sq. ft., and will improve patient confidentiality, allow for direct sightlines to patients, and enhance staff safety. It will include: a covered ambulance bay with dedicated ambulance entrance; confidential triage and registration spaces; expanded trauma and treatment areas, with emphasis on increased privacy and better infection control measures; and a new nurse station, medication room, washrooms and equipment storage.
