Highlights from TNRD's Regional growth report

In the past 5 years housing starts are up 20% in established communities. Kamloops still accommodates the greatest percentage of new housing units (80%), many of which are in multifamily developments.

- More people are driving for longer commute durations to work and/or school while rates of walking, biking, using transit, or carpooling remain stagnant or are declining.

- Economic & employment trends are positive — median income is up & unemployment is down. On the down side the proportion and actual number of higher paying resource sector and manufacturing jobs are down since the 2011 Census.

- The Thompson Cariboo Shuswap HSDA reports higher rates of asthma, COPD, and diabetes than BC as a whole. The good news is that BMI is decreasing and life expectancy is increasing

- Our agriculture sector continues to gain strength on the basis of higher beef prices and ongoing diversification of cattle/dairy industry. Total farmed land is up and farm income is up — even as the number of individual farms is down.

To read the full report, go to www.tnrd.ca and click on Planning, under Development Services.

Blog comment Great to hear about the wireless emergency alert test and system...

But there remain many large areas in the TNRD that do not have cell service. I think it's time for Telus to establish coverage for neighbourhoods west of Lower Nicola, all along Highway 8, Spence's Bridge and Hwy 1. Emergency communication is surely part of reasonable expectations today for all citizens. Yes, it might involved some expense. But if the system is to be used for official communications, it is vital not to leave out whole communities.

What is Physiotec?

Physiotec is a fully customizable website physiotherapists and registered kinesiologists now use to create home exercise plans for their clients. There are over 7,000 exercises to choose from and each one comes complete with instructions, pictures and videos. Clients no longer have to remember what they did in their session, worry about misplacing their homework or try to decipher stick men drawings - they can simply click on a link and get started. I am so excited to have access to this program through the BC Association of Kinesiologists (BCAK) and be able to share it with the community!!! --Katrina Bennett, RK, Registered Kinesiologist

I tried to kidnap a blacksmith but when I turned my back, he made a bolt for the door.

Cop: "License and registration...it says here you need glasses". Guy: "I have contacts".

Cop: "I don't care whom you know; you still have to wear your glasses".

THIS WEEK'S HOROSCOPE

Aries

March 21 - April 19

You don't have to act on your heart's desire this week. But if you do, you have the resources to transform a complex situation into one you've long wished would materialize.

Taurus

April 20 - May 20

What behaviour are you green-lighting that could be detrimental to your well-being? Forgiveness is one thing, but this week you to stand up for yourself.

Gemini

May 21 - June 20

Where in your life are you facing a complex issue? This week, the answer may be less complex than you imagine. To get where you want to be... gently does it!

Cancer

June 21 - July 22

This week, it seems unlikely that the pieces of a puzzling situation will fall into place. But, if you listen carefully you may be able to learn enough to see a bigger, brighter picture.

Leo

July 23 - Aug 22

It can be almost impossible to tell disasters & miracles apart. You need a close-up look at the situation you're dealing with. The answer to your quandary is a question of perception.

Virgo

Aug 23 - Sept 22

There's only one right answer, it requires you to think outside the box. A present riddle is waiting to be solved, but with imagination, you'll find an answer.

Libra

Sept 23 - Oct 22

It's easy to confuse minor issues with cataclysmic problems. If you can keep your perspective as you head into a new week, you'll appreciate moments of delight.

Scorpio

Oct. 23 - Nov 21

Some transformations are slow processes that we have to coax into reality. This week, you can inject fun into learning. You'll be able to assess the progress you've made.

Sagittarius

Nov 22 - Dec 21

You may not be able to give in to your deepest urges this week. But if you commit to a healthy plan, they won't go unsatisfied.

Capricorn

Dec 22 - Jan 19

Your way of looking at a certain issue seems perfectly logical. But there's never just one perspective. Now, cast off everything you think you know & look again with fresh eyes.

Aquarius

Jan 20 - Feb 18

Think once and then think twice. Be sure to adjust your impulses so that they match the delicacy of your situation. Then, you'll be able to pursue your goals with subtle vigour.

Pisces

Feb 19 - Mar 20

While it's noble to devote our lives to making other people happy, we can't ever truly help without acknowledging our own needs. Don't be afraid to reach out and ask for support.
