Fire season upon us

Sunday wildfire on Lauder Rd

On Sunday, the Lauder Road fire located approx. 8.5km east of Highway 5A, was estimated to be 20 hectares in size. A Response Officer along with 3 additional personnel and a helicopter attended for support. By Monday, it had grown to 50 hectares, but was considered 'held'. By Tuesday it had grown to 69 hectares.

Over the weekend, Kamloops Fire Centre crews were battling 3 wildfires in the area — one 17km north of Lytton, and the other 4km south of Cawston on the west side of the Similkameen. All 3 are suspected to be human caused.

Open burning ban starts tomorrow

As of Thurs., April 16, most open burning activities will be prohibited throughout BC to reduce the likelihood of human-caused wildfires, although campfires will still be allowed.

Category 2 & 3 open fires; resource management open fires; use of fire-works, sky lanterns & burn barrels/cages (except when used for a campfire) will be prohibited, until further notice.

Controlled burning at Shulus

Annual community planned burning at Shulus — overseen by the LN Fire Dept. — over the weekend gave us smoky skies on Saturday. It also burned an old house, evidently abandoned and mouldy, near the intersection of Hwy 8 & Mamit Lake Rd.

Snow survey & water supply

The River Forecast Centre's April 1st Snow Survey & Water Supply report shows the Nicola basin to have one of the lowest snowpacks in the province, at 92% (88% in March) of normal. All around, however, the snowpacks are much higher: South Thompson 123%, Okanagan 116%, Similkameen 112% & Fraser River 116%.

Cool weather has led to a delay in low elevation snowmelt. And to date, there has been a below-normal to normal streamflow. Many smaller streams and northern rivers are still under ice conditions. Warming weather this week is expected to lead to more general snowmelt at low elevations and should usher in the onset of the seasonal freshet season.

Runoff forecasts for the Nicola are at 93-109% of normal.

Spring weather is also a critical flood risk factor, where the timing and severity of temperature and rainfall patterns are important drivers of flooding irrespective of snowpack levels. Spring freshet poses a seasonal risk across the BC Interior.

Scenarios that could exacerbate flood risk this year include prolonged cool weather followed by a rapid shift to persistent hot weather (particularly in May), or persistent wet weather or extreme short-term rainfall. Favourable scenarios would include continued dry weather and seasonal temperatures.

Thoughts from outside the box Descent

The power of public policy can create the ideal nation and, in turn, the ideal person. How? Well, the human condition is a translation of the environments, and public policy, one of the greatest instruments invented, has the power to guide and develop the built environment, and in turn, the awareness and living standard of a person.

But it seems that people unconcerned with experiencing an elevated awareness and a higher standard of living rule nations. The term "debt-slave", the low wages, the stone feet, the broken wings, our untapped cognitive potential, the lack of spiritual understanding, and the unbelievably high price to live are the manifestations that support my argument.

"Only a great fool would call the new political science diabolic: it has no attributes peculiar to fallen angels. It is not even Machiavellian, for Machiavelli's teaching was graceful, subtle, and colorful. Nor is it Neronian. Nevertheless, one may say of it that it fiddles while Rome burns. It is excused by two facts: it does not know that it fiddles, and it does not know that Rome burns." — Leo Strauss

— Mike Bhangu, Amazon best-selling author

Mayor Brown update

Aspen Planers closure & more

Aspen Planers announced an indefinite shutdown. It has been increasingly impossible for them to operate, given the backdrop of low lumber prices, increasing stumpage rates, environmental issues and COVID-19. Over the years, operations have become more difficult, all the issues have proven to be too much for this organization. Aspen assures us they continue to revamp who they are and look for way to return operations to the City of Merritt, but in a sustainable manner. This is a family company that has been in this valley since the 1940's. It is a devastating blow to this community with the loss of 150 direct jobs as well as a similar amount in logging contractors, truck drivers, and their management staff.

TransMountain has started to move product to their site just outside the city. There are 20-30 deliveries each day for the next month or so. Contractors are staying in Merritt, and they will be practicing physical distancing guidelines.

Bylaw officer was taking pictures of individuals in high traffic public areas. He is now only taking pictures of those not practicing physical distancing, and will be following up with a conversation on education. The City cannot make any-one move or maintain physical distancing. It is not mandated. But we expect it.

We do have COVID cases in the community. Please treat everyone you meet as if they are a potential carrier. But please be kind.

FLOURISH UNDER THE SUN

How to protect yourself

We encourage you to follow the same procedures as what is recommended during cold and flu season:

- Stay home if you get sick and limit contact with others to keep from infecting them.
- Wash hands regularly with soap and water. This is the single most effective way of reducing infection spread.
- Avoid touching your eyes, nose or mouth. Germs spread that way.
- Cover your mouth and nose with a sleeve/tissue and turn your head away from others when coughing or sneezing.
- Use tissues to contain secretions and dispose of them promptly in a waste container.
- Keep common surface areas like doorknobs, light switches and keyboards, clean and disinfected.

BC Centre for Disease Control

COVID-19 Symptoms & other questions

The symptoms of COVID-19 are similar to other respiratory illnesses, including the flu and common cold. They include **fever, cough, shortness of breath or difficulty breathing**. Other milder symptoms may include: **runny nose, fatigue, body aches (muscles and joints aching), diarrhea, headache, sore throat, vomiting and red eyes**.

Do I need to be tested if I have symptoms? The BC COVID-19 Self-Assessment Tool is available for anyone that develops and can be used to help determine if you need further assessment or testing for COVID-19. Go to: <https://bc.thrive.health/>

Can you become sick from someone before they show symptoms? There have been a few instances of transmissions before the person became sick or the symptoms were so mild that the person did not know they were sick. However, most people became ill from being in close contact with someone who showed symptoms such as coughing and sneezing, therefore transmitting the virus through droplets.

Rediscovering the Truth

THOUGHTS FROM OUTSIDE THE BOX

"Like a snowflake that doesn't melt, like a tornado that doesn't swirl, like a lightning bolt fashioned in the workshop of an angel. The soul is more. The true 'I' is built as a demi-god."

— Mike Bhangu

TELUS Keep your sanity and perhaps even enjoy your time in relative isolation.

- Maintain a routine: We all feel better, and function better, when we follow a routine. End your workday at the same time as usual and try to go to bed at your usual time as well.
- Exercise: Exercise is a treatment for depression and anxiety. It doesn't take much exercise to help your brain stay mentally fit: 30 minutes of mild- to moderate-intensity exercise five days a week is enough.
- Go outside: So long as you can keep your social distance (at least 1m, although 2m is ideal), get outside to walk or bike, an effective way to aid stress reduction.
- Schedule fun time in your day: Make sure you do something you enjoy every single day. It will help your brain to really relax and reset.
- Learn how to be more mindful: Mindfulness is a life skill and can be learned.
- If in doubt, check it out: Be very careful where you get your health information regarding COVID-19. Go to reputable sources, such as the Public Health Agency of Canada, your provincial medical officer or the World Health Organization.
