## Major new fuel-from-air project announced for Merritt & the Nicola Valley

Yesterday, the BC Govt, along with cleantech industry leaders Squamish-based Huron Clean Energy with its partners, the Upper Nicola Band, Oxy Low Carbon Ventures and Carbon Engineering, announced a "first-of-its-kind plant in Merritt to capture carbon dioxide and convert it to clean fuels, creating new jobs and economic opportunities in BC's cleantech sector". The gov't's Innovative Clean Energy Fund is contributing \$2 million to the initial design work, demonstrating its continuing support for home-grown cleantech innovations.

The new Merritt Electro Fuels Project will help to meet the gov't's CleanBC goals. Huron has an equity partnership and land-lease arrangement with the Upper Nicola Band, which will receive a substantial part of the equity interest in the project as consideration for the land lease and other services.

The large-scale, commercial facility would produce transportation fuel out of atmospheric carbon dioxide. The proposed facility is being designed to utilize CE's Direct Air Capture and AIR TO FUELS™ technologies to capture carbon dioxide out of the air and deliver up to 100 million litres of ultra-low carbon fuel each year. Powered by clean hydroelectricity, the plant will combine atmospheric carbon dioxide with hydrogen to produce renewable fuel, such as gasoline, diesel, and jet fuel. These fuels create up to 90% fewer emissions than conventional hydrocarbons and work in existing airplanes, ships, trucks and cars without the need to modify the vehicles.

The Merritt plant will produce 103 million litres of low-carbon fuel per year requiring the annual input of 250,000 tonnes of captured carbon, 315 megawatts of electricity and 35,200 tonnes of hydrogen for the fuel synthesis process. The project is expected to prove the technical and business case for direct air capture and fuel synthesis, which could lead to the development of other commercial plants across Canada and other jurisdictions.

The facility is slated to be built 25kms from town, on one of Upper Nicola Band's 8 reserves. The plant is expected to occupy approx. 100 acres of commercially-designated band land, and Huron has partnered with Upper Nicola Holdings Limited Partnership on a land and business participation agreement. Huron intends to partner with Oxy Low Carbon Ventures, a subsidiary of Occidental, as Huron's execution and operations partner on the project. Construction is expected to begin in 2023 with operations targeted to commence approximately 3 years after that.

Proponents say this project will create about 620 direct jobs during the design and development phases of the project, with another 4,780 direct jobs during construction and 340 long-term jobs during the plant's operation.

## City now offering paperless billing

The City is now offering residents a paperless billing option, when you register for a Merritt ONLINE account. This will allow you to have your property tax and/or utility bills automatically emailed to you; see all your historical bills, payment history, meter reading history (if applicable); and see your assessment and tax notice history, payment history, and Home Owner Grant Status. Register at [www.merritt.ca](http://www.merritt.ca)

## Thoughts from Outside the Box Counterfeit greatness

Faithless, many faces bow before passing sensations. Perhaps they be victims of maya's counterfeit greatness? Is this the status of the slavish? If so, then freedom must resonate with the principles of Heaven, such as love, humility, and compassion.

— Mike Bhangu

## Barley porridge with honeyed plums

1 cup unhulled barley Kosher salt  
1 cup almond milk ¼ tsp cardamom  
5 tablespoons honey, divided, plus more for drizzling  
1 pound plums, cut into wedges

Cook barley in a large saucepan of boiling lightly salted water until tender, 30-40 mins. Drain and return to saucepan. Add almond milk, cardamom, 2 Tbsp. honey, and a pinch of salt & cook over low heat, stirring occasionally, until warm. Meanwhile, cook plums, 3 Tbsp. honey, & 3 Tbsp. water in a small saucepan over med.-low heat, stirring occasionally, until plums are soft & liquid is syrupy, 8-12 mins. Serve porridge into bowls. Top with plum mixture & drizzle with honey.

**Out All Night and Every Night** "I want to divorce my wife." "On what grounds?" "She is out all night, every night, going from bar to bar." "Are you saying she's an alcoholic or do you think she's cheating?" "No, she is looking for me."

**A guy finds a lamp walking through the desert...** When he rubs the lamp a genie comes out and tells the man he has one wish and whatever he wants it will be done! The guy says to the genie that he is afraid of height and wants a bridge built from California to Hawaii. The genie replies that it would take all of his powers to build that bridge, and is willing to make any other wish come true instead. The man says, I wish to know how to understand women! The genie says, so do you want 2 or 4 lanes on that bridge to Hawaii?

The Nicola Watershed Stewardship & Fisheries Authority of the Scw'exmx Tribal Council

**Coho salmon enumeration activities Coldwater River at Voght Park**  
— Until late November —

This project occurs annually in partnership with Fisheries and Oceans Canada and provides important information on Interior Fraser Coho. Coho are counted as they pass through a trap box and with the use of sonar. Migrating Coho that enter the trap box are sampled before being released upstream to continue their migration. Data collected includes length, sex, and origin (hatchery versus natural). Handling the fish also provides an opportunity to assess their overall health. The study design and operational procedures ensure minimal disruption to Coho migration and aim to reduce stress as much as possible. The majority of Coho migrate past the site unimpeded, through an opening in the fence, and are captured by the sonar unit. The injury rate of fish in the trap is very low; less than 0.2% of fish, on average, passing through the site display fresh wounds. This project is NWSFA's top priority during Coho migration and obtaining quality data to inform fisheries management decisions is the main objective.

**For your safety, please stay off and away from the infrastructure required to carry out this project.**

For more info or to report damage/vandalism, please contact the NWSFA Program Manager at 250-378-4235
