Cooling centre open until Friday

As of yesterday, a temporary cooling center has been established in room #4 at the Merritt Civic Center, 1950 Mammotte Ave. This room is accessible from the exterior doors and there will be signage pointing to the entrance.
The Center will be open from 10am to 4:45pm until Friday this week, and if there is a need for it to be open on the weekend then a plan will be made to staff it and open it on those days.
Attendees to the cooling center can expect to find an airconditioned room, seating, cold bottled water, wifi, and reading material. There will be power outlets for charging electronic devices.

Shout out

We would like to give a shout out to the ladies at Mandolins for the wonderful trays they made up for our family for a celebration of life.
We were trying to support two local businesses in town to help out with this. Unfortunately one of these businesses completely dropped the ball on a pre-order that we had made. At the last minute's notice Mandolins made all our trays including extras in the time we needed with no problems at all.
We just wanted to extend our thanks to these ladies for doing everything they could to make sure we had exactly what we needed. Great job girls!!
Sincerely, Cory & Shelley Christensen

New Ec Dev mgr & Communications mgr

The City of Merritt welcomes Kim Mullin, new Communications & Engagement Manager, and Marilyn Christensen, new Economic Development Manager.
Both started earlier this month, and join the City as we get back into 'normal' full swing — with the return of events & festivals, after the covid hiatus. Welcome to Merritt, Kim & Marilyn!

Thank you from Spirit Square

Summer time in Spirit Square was a fun celebration of creativity. We, the Nicola Valley Art Gallery, thank all of our supporters for the success of our first arts festival in the square.
We thank community members for attending and participating in our workshops, and all those who came to see "The Atlas Band". As well as our amazing workshops leaders. Without the support of the community we wouldn't be able to pull such wonderful event.

Heat wave

BC Lung Foundation has done its homework on extreme heat & how to prepare for it, by convening a panel of extreme high heat experts to understand last year's heat dome, and what to do to mitigate extreme heat.
"Our June Air Quality Health Workshop revealed startling data about who was affected, and how, by the heat dome of 2021. 98% of the deaths caused by 2021's high heat occurred indoors in a residence – a place where people feel they have shelter and more control over their personal temperature. Sadly, that proved to be a wrong assumption.
"It may surprise some people, who think they're cooler once the sun goes down, but that's not the case. Outdoor temperatures peak in the afternoon – but indoor temps peak in the evening. And heat-related illnesses can increase at an indoor temperature of just 26° C (78° F)."
To be prepared for any heat event:
• Use an air conditioning unit – in a wildfire smoke event, set your air conditioning unit in "circulate" mode • Know that fans aren't really effective: they circulate air in the room, but only give the perception of cooling • Don't rely on blinds as a window covering; use cardboard, aluminum foil or dark fabric to block the sun • Keep a thermometer at hand, to monitor your body temperature • Wear hats or extra light clothing during hot days • Wet towels: cool, wet towels applied to the skin lower body temperature • Stay hydrated with water.
