SOLAR ECLIPSE EDITION - APRIL 8, 2024 #3945

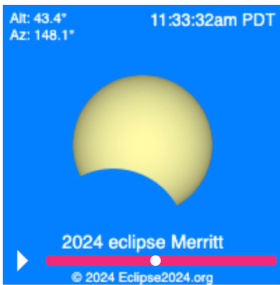

News, opinion, community events since 1996! Box 2199, Merritt, BC V1K 1B8

Tel: (250) 378-5717 Fax: (250) 378-2025 Email: market@uniserve.com

Solar eclipse

While across a wide swath of North America — Mazatlan, Dallas, Little Rock, Indianapolis, Cleveland, Niagara Falls, Montreal, Frederickton & Gander — today's solar eclipse will be total, in BC we will just be able to see a partial eclipse.

In Merritt, the eclipse will look like this diagram. It starts at about 10:45am & ends at 12:20pm. The moon will be at 30% magnitude, that is the amount of the sun's disk that is covered at mid-eclipse (11:34am). Vancouver will get 17% magnitude. NEVER look at the partial phases of the eclipse without **CERTIFIED EYE PROTECTION!** Sunglasses, binoculars, and telescopes do NOT count as proper protection. You can also make yourself a pinhole camera, to view the effect of the eclipse, lots of instructions online. You can also watch it in real-time on NASA's Eclipse website.

New wildfire training & education centre

A new dedicated wildfire training and education centre at TRU in Kamloops was announced last week.

The centre, the first in North America to transition wildfire training into degree programs and research, will offer comprehensive training and programs from basic skills in the wildfire field, to the future development of wildfire academic diploma & degree programs in wildfire and emergency management disciplines.

Program design will start this year with intakes for training beginning in 2025 in existing facilities. There are plans also underway to develop a state-of-the-art training facility and building.

The new centre, a partnership between TRU and the Min. of Forests' BC Wildfire Service, will enhance the training capacity at BCWS. Courses will include subjects such as wildfire science, community impacts of wildfire, Indigenous history and cultural fire, climate and community adaptation, mitigation and prevention research, and emergency management.
